

A Petition to Orcas Health Care District Board of Commissioners

Subject: Dr. Vincent Shu's Clinical Services

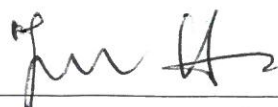

As Dr. Vincent Shu has been offering compassionate health care as a primary care physician on Orcas Island, as well as working toward the prevention of opioid addiction and improved healthcare for cancer patients, we as residents of Orcas Island petition the Board to consider financial support of his clinical practice as a direct benefit to Island residents, and as a means of increasing residents' healthcare options.

Comments:

There is no way one treatment can work for everyone. we need to experiment with variety. As for the opioid crisis, it kills more people than guns among other things. We need to address the issue that opioids are too easily available. And it appears that without an offer of alternative means, the person is almost forced down a path they didn't intend to follow.

Comments: We need Dr Shu to be added to U.W. Orcas Medical Clinic. Since he is geriatric (majority of population is over 65, and many need help sooner than 3-weeks or 1 month or 3 months - cardiology). Also many here had him as our physician.

A Petition to Orcas Health Care District Board of Commissioners

Subject: Dr. Vincent Shu's Clinical Services

As Dr. Vincent Shu has been offering compassionate health care as a primary care physician on Orcas Island, as well as working toward the prevention of opioid addiction and improved healthcare for cancer patients, we as residents of Orcas Island petition the Board to consider financial support of his clinical practice as a direct benefit to Island residents, and as a means of increasing residents' healthcare options.
